### Science Fair Abstract Worksheet

An abstract is created after the experiment/innovation/study is complete. It is a summary of the purpose, procedures, results and conclusion that gives judges a quick overview of the project. Prepare to write it as four separate paragraphs. Once this handout is completed, combine all the sentences so that it appears as one paragraph.

**Write one or two sentences about what you studied and you wanted to find out (example: Problem/Purpose):**

---

---

---

---

---

**Write down the original hypothesis statement in an IF/THEN format:** \_\_\_\_\_

**Write three or four sentences about your procedure briefly highlighting what you did (example: procedure/method):** \_\_\_\_\_

---

---

---

---

---

**Write three or four sentences about important observations and the general trends of your results (example: observations and results):** \_\_\_\_\_

---

---

---

---

---

**Write one or two sentences about your conclusion. This will include the answer to your question, extensions and applications to your project:** \_\_\_\_\_

---

---

---
