

	<b>Rookie (1)</b>	<b>Apprentice (2)</b>	<b>Expert (3)</b>
<b>Cell structures included</b>	Less than 80% of the items that need to be identified are present and have analogies and/or it is not clear which analogies goes with which item.	Almost all items (80-90%) that need to be identified are present and have an analogy. It is clear which analogy goes with which structure.	Every item that needs to be identified is present and has an analogy. It is clear which analogy goes with which structure.
<b>Cellular Functions</b>	Fewer than 80% of the cellular functions are correct and/or are included in with the analogy statement.	Almost all (80-90%) cellular functions are correct and are included in with the analogy statement.	All cellular functions are correct and are included in with the analogy statement.
<b>Appropriate analogy</b>	Fewer than 80% of the analogies fit well with the organelle's function.	80-90% of the analogies fit well with the organelle's function.	All analogies fit well with the organelle's function.
<b>Structure/ Function</b>	Fewer than 80% of your structure/function descriptions are clear and/or original.	80-90% of your structure/function descriptions are clear and/or original.	You communicated a clear and original description of how all of the organelles' functions match their structures.
